

Over the years,
the one compelling
factor about making
customers happy
is that we see
something different
in every job we do.
We know your
project will be
unique. Your
design is
personalized to
your home and
lifestyle.

NEWS FROM THE HILL

The second installment of our newsletter is as exciting for us as the first. This newsletter is part of a long-term communication plan which continues to evolve and change as each day passes. We invite you to continue to be an important part of our journey. Our goal is to keep you informed with each new issue of "News From the Hill," and to give you a sense of our vision, which then translates to yours.

Over the years, the one compelling factor about making customers happy is that we see something different in every job we do. We know your project will be unique. Your design is personalized to your home and lifestyle.

With any project we do, we understand this is an investment in your home and your future. We challenge ourselves and you to bring added value to your remodeling project. Working together during the planning phase we will suggest value added ideas for your project such as additional storage space, use of green materials, and possible tax credit opportunities for energy saving remodels.

Greg Rehm – Owner

By engaging in constructive dialog prior to construction, our relationship grows stronger. Openly discussing budgets, scheduling and the impact of a remodel on daily life ensures that project outcomes are predictable. We thank you for placing your trust in us; we welcome your feedback and look forward to hearing from you. Please contact us at any time.

Greg Rehm, CGP, CAPS, CGR, RRP

OUR NEW OFFICE AND WORKSHOP CONTINUES TO EVOLVE
Our new carriage house continues to take shape. Our plan for the office and workshop is to offer you a space where you can focus on your project without interruptions. Our showroom will provide examples of design ideas and building materials as well as reference materials for your use. Please call 603-472-4414 to set up an appointment or e-mail us info@libertyhillconstruction.com.

PROJECT SPOTLIGHT

PETER WOODBURY SCHOOL, COMMUNITY SCHOOL YARD

In the fall of 2009 Liberty Hill Construction worked with community volunteers at Peter Woodbury School in Bedford to build this Fairy Land Garden Cottage. Liberty Hill Construction donated materials, time and labor to build the entire project that was designed by students at New Hampshire Technical Institute. The cottage is the cornerstone to an entire community schoolyard project that included a new playground, raised garden beds and outdoor musical instruments.

IT IS ALL ABOUT YOU, AND WE NEED YOUR HELP

You have been our clients, you have referred us, rehired us for additional projects, and now we are asking for your help so we can continue to grow. When you give us a referral, we want to thank you. What would be appropriate? Is it a thank you note, a unique bottle of wine, water bottle, coffee mug, chocolates, a gift certificate for coffee or dinner, or a complementary consult for interior design or lighting? Or is it something else?

Log onto www.libertyhillconstruction.com/unique to vote on your favorite client referral gift.

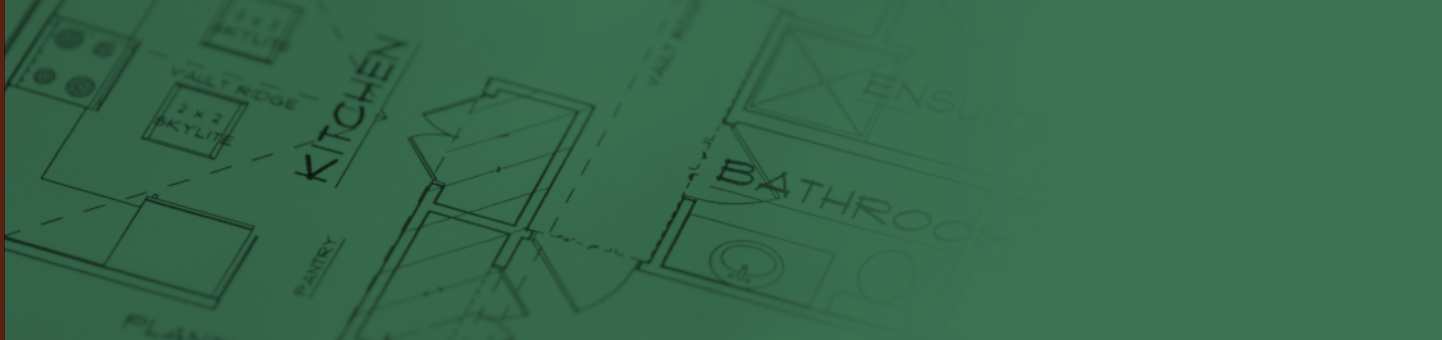

Also, our on-line correspondence has been well received by our clients. If you have not done so already, please drop us a line at info@libertyhillconstruction.com so we can add you to our growing address book. We will not share any information you provide us. We look forward to hearing from you.

OUTDOOR LIVING

A new outdoor living area is perfect for entertaining, whether it is for family events, having the neighbors over, or enjoying it with the kids. We have designed and built porches, three season rooms, pool houses, decks, patios, fire pits and more. If you dream it...we can build it for you!

Marcus needs your help. He is asking that you become a Facebook Fan of Liberty Hill Construction. Go to our page Facebook.com/liberty.hill.construction and click on the "like" icon. Thanks!

PROFESSIONAL DEVELOPMENT/EDUCATION

Greg and Pete are now certified and in compliance with the new lead paint laws instituted by the U.S. Environmental Protection Agency (EPA). They are trained to follow specific work practices to prevent lead contamination and can talk with you about lead paint remediation, and about taking the correct steps according to the new lead paint law of 2010. In addition, Liberty Hill Construction is now a certified firm and can legally and safely perform renovations, repairs, and painting when in the presence of materials containing lead based paint.

THE FOCUS ON BEING GREEN

Green is being talked about everywhere. When it comes to your home, it can be overwhelming to know where to begin. Our goal is to assist you with being greener one step at a time. Start small. It can be as simple as changing the way you launder your clothes. We just converted our home to a cold water washing system. The long-term savings are worth it, and you will take pride in knowing you have taken the first step to being greener in your home.

You do not have to do it all today, the most important thing is to provide you with options on "going green" or building green so you can take the logical steps over time to complete your green vision.

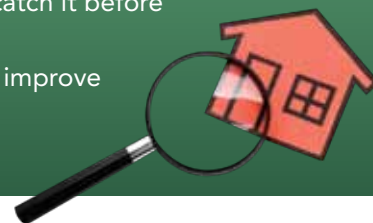

PREVENTATIVE MAINTENANCE

ONE YEAR LATER

It is important to us that we offer you service above and beyond your expectations. That is why we have instituted a "One year later" program at Liberty Hill Construction. One year after we have completed your project, we will schedule an appointment to do a full inspection of our work.

WHY DO WE DO THIS?

- We want to be sure our work is holding up above and beyond expectations
- If there is a potential issue, we will be able to catch it before it becomes a bigger problem
- We are checking our own work to find ways to improve our techniques
- We want personal feedback from you.
